Vikaspuri, New Delhi

About Me

Aspiring Data Analyst with a strong foundation in Python, SQL, and data visualization. I've led teams, trained students, and built digital projects — all of which taught me to think critically and work collaboratively. Currently upskilling through hands-on courses, and excited to turn my passion for data into meaningful impact.

Skills

- Python, C, C++, Java, SQL
- HTML, CSS, Javascript
- Observation
- Decision making
- Communication
- Multi-tasking
- Team Management
